182mm/132mm (W) x 125mm (H) x 182mm (D)  
6.37 L/m (solid wall)

### Colours

A choice of three natural stone-look colours are available: **Iron Sand, Rock Salt and Desert Storm**. Other colour options can be made to order.

IRON SAND

ROCK SALT

DESERT STORM

### About Us

Bowers Brothers Concrete are a family owned concrete manufacturing company that has been in the business for over 80 years. In that time we have established branches throughout the Waikato including Morrinsville, Hamilton, Matamata, Putaruru and Paeroa (known as Paeroa Concrete). We manufacture and deliver redi-mixed concrete from each of our five branches while our Morrinsville plant also manufactures Masonry Blocks, Pavers, Retaining Wall and Precast Concrete Products. With our state of the art Columbia block machine we strive to produce consistently high quality masonry products.

### NOTE

- Colour and texture may vary between retaining wall types and batches. To ensure a uniform finish we recommend that you blend off multiple pallets if the job is greater than one pallet.
- Concrete products may display 'efflorescence' (whitening) which is a natural occurrence. We have taken all possible steps to minimise this from occurring in our products.
- Colours shown may alter, due to the limitation of the colour printing process of the brochure.
- All dimensions and specifications are approximate.

### Laying Patterns

**Notes:** **Curved Radius:** Minimum radius for inside curve is 435mm & 615mm for an outside curve.

**Circle:** 21 units will form a circle.
