

NOTES

1. Hand compactor to be applied in the consolidation zone only
2. Heavy compaction machinery to be used 1.2m away from the wall face
3. 95% of standard Maximum Dry Density (MDD) or equivalent Clegg Impact Value (CIV)
4. Rollers and compactors must run parallel to the retaining wall

The purpose of this drawing is for preliminary design only. This drawing should not be used for final design or construction without the certification of a professional registered engineer. © 2020 BOWERS
